Surviving Your Next New Workplace

Transitioning? Your first week in a new workplace can be a nerve wracking affair. The fact is, every workplace offers up a different culture and social mix. How do you temper the anxieties of a new workplace, a new crowd of colleagues and a new management culture?

In our [latest article](#), we uncover the things you need to know about surviving your next new work life experience. **Read it before you do your next shift!**

Spotlight

Eric Dennis L. Estrabon is a Clinician. Here's what he has to say about *his* t4h team.

Shubhi and the t4h team made the onboarding processes smooth and painless. They were patient with me regarding my adjustment requests too, before starting my extension period! I was impressed that they were so understanding of my decision to be with them just for 4-months and a few days only due to family matters.

I am so grateful for the opportunity. More power to the company!

"I'm delighted with the support from Shubha and the team ... Eric"

Tips, Tricks & Advice

New York, New York!

Employee Spotlight **Rajnish Rai**

Dedicated nursing recruiter with a passion for connecting skilled nurses with rewarding opportunities. Committed to supporting both healthcare organizations and the nurses who power them. Rajnish takes pride in helping nurses find roles where they can make a meaningful impact, because when they succeed, patients benefit.

Thank you, Rajnish!

Rajnish says:

“Joining T4H as a recruiter marked the beginning of an incredible journey of growth and learning for me. From day one, I've been surrounded by mentors and teammates who are passionate about what they do. The company's emphasis on development has helped me evolve both as a recruiter and as an individual.”
